

ANEESH SHARMA

SUMMARY

Computer Science recent graduate offering a strong foundation in software engineering and programming principles across multiple platforms. Professional experience of product analysis and support in a fast-paced environment, seeking an entry-level opportunity in a team-oriented software development firm.

EXPERIENCE

Product Analyst

CMiC | North York, Ontario | February 2022 - Current

- Understanding client requirements and providing solutions consistent with their vision and recommendations for prompt resolution.
- Assisting in integration of software requirements and documenting functional, security, operations and performance requirements.
- Responsible for all over support for the application and assistance to the stake holders.
- Actively working in a cross-functional environment by identifying and addressing issues that could affect the application.
- Handle incidents effectively by ensuring escalation of possible problems for timely delivery of resolution.

PROJECTS

Vaccination Appointment Booking Website:

(HTML, CSS, JavaScript, Bootstrap, jQuery)

- Designed a **website** for booking Covid-19 vaccine appointments.
- Implemented **authentication** for login page.
- The website chronologically walks the user through being eligible, selecting the vaccine dose, clinic, date, time, confirmation etc.
- Created a page to view, edit and delete the appointments as well.
- Ensured a consistent user-friendly interface using **Bootstrap**.
- Performed **Usability testing** with the help of volunteers.

Contacts List App:

(Java, Swing, JDBC, MySQL, XAMPP)

- Created a **Java Window Application** to manage a database system.
- Implemented the database in **MySQL** using **phpMyAdmin** and **XAMPP** server.
- App allows users to record, retrieve, edit and delete entries from the database.
- Used **Window Builder library** to design the application interface.

Snake Game:

(Java, Swing, AWT, JPanel)

- Developed a classic 2D Snake Game in **Java** using **Swing framework**.
- Used **Java Abstract Window Toolkit** to design the Graphical User Interface of the application.
- Applied various concepts like **JPanel**, **JFrame** and **ActionListeners** to ensure integrity of the project.
- Deployed the project as a **JAR** file to enhance security of the code and provide easy access to the user.

EDUCATION

Bachelor of Science

Computer Science
York University, Canada
February 2022

SKILLS

- **Languages:** Java, HTML, CSS, JavaScript, C, C++
- **Frameworks and Libraries:** Swing, jQuery, Bootstrap, Ajax, React.js, Express.js, Material UI
- **Database:** MySQL, Mongo DB
- **Other Technologies:** JUnit, XAMPP, Node.js, JSON, Git, Salesforce, Jira
- **Also Familiar with:** Python, Flutter, Firebase, XML, PLSQL

CERTIFICATIONS

- Advanced Full Stack Web Development - 2021
- Data Structures and Algorithms - 2020
- Core Java & Advance Java - 2019
- C & C++ - 2019
